

## Ohio Psychiatric Physicians Association

# Practical Psychiatry: Pragmatic Approaches & Clinical Pearls

A series of webinars originally planned as live presentations at the OPPA's 2020 Annual Psychiatric Update

Although the March event had to be cancelled due to the coronavirus pandemic, we are delighted to bring you these excellent presentations as on-demand web-based learning modules

The field of psychiatry has seen tremendous advances in treatments and understanding of mental disorders, in the milieu of increasing physician burnout, administrative responsibilities and tumultuous political issues. Because of this intersection, psychiatrists must be at the forefront of continued education in the practical aspects of our profession to thrive. The OPPA brings together thought leaders from across the nation for this series of webinars, focusing on various aspects of practice that psychiatrists routinely encounter which spans pharmacological, therapeutic, regulatory, media and administrative issues. Practical psychiatry increases knowledge, builds confidence, expands connectedness, decreases helplessness and supports resilience.

- July 16**      ***Physician Implicit Bias in Health Care: An Invisible Risk Factor for Poor Patient Outcomes***  
**Quinn Capers, MD, FACC** | Vice Dean for Faculty Affairs, Professor of Medicine (Cardiovascular Medicine), The Ohio State University College of Medicine, Columbus
