

The New Chapter of **Reproductive Justice** and the Legacy of **Reverend Dr. Martin Luther King Jr.** **Saturday, January 14 at 9AM, ET**

Sponsored by Area 4 of the APA Assembly

In 1966, Rev. Dr. King received the Planned Parenthood Federation of America's Margaret Sanger Award. As psychiatrists, we are focused on the mental health of patients facing women who are faced with limited ability to exercise control over their reproductive rights but we recognize primary care physicians including ob/gyne physicians often manage many of these patients without our consultation.

For our **3rd annual Rev. Dr. Martin Luther King, Jr. Educational program**, we plan to focus on the mental health concerns impacting women and the real threat to the autonomy of women to make decisions about their body, an issue that Rev. Dr. Martin Luther King described as an essential civil right.

Featuring Guest Speaker:

**Dr. Diana Ramos, MD, MPH, MBA, FACOG, the first
Latina to serve as California Surgeon General**

Dr. Diana E. Ramos is a well-recognized public health leader dedicated to improving health care quality and equity. She recently served as the Assistant Deputy Director of Chronic Disease Prevention for the California Department of Public Health. Past roles include the Director for Reproductive Health in the Los Angeles County Department of Public Health and adjunct Associate Professor at the Keck University of Southern California School of Medicine.
